- Far more serviceable and user-friendly than permanently installed extensions
- Perfect for a family with a special needs user
- **A must for evaluators**

EASILY REMOVABLE

3 POINTS OF SECURED CONTACT

"Because of Howell Ventures innovativeness we were able to allow one of our customers to train and eventually be independent when it comes to driving. The steering wheel extension Sure Grip manufactures was not only inexpensive but was so easy to set up and move from one vehicle to another for training purposes. Plus the design makes it easy to remove for other vehicle users. If you have a customer that cannot operate a vehicle with a full size steering wheel this is the most inexpensive and user-friendly solution you can find."

Brian Lutz, General Manager, D.W. Auto and Home Mobility, Columbia Mo.
